5 - 7 Points: Addicted Alyssa

Hmmm... can we say obsessed? It's so easy to be attached to your iPod/ computer/phone, especially when you've got mail. But, it's time to disconnect to ensure you don't miss out on life.

8 - 11 Points: Wired Wendy

Kudos to you! There is definitely a fine line between being connected versus being fixated and you're managing it wisely. Sure, you like to IM your friends but you also don't sit in front of your computer 24/7.

12 - 15 Points: Liberated Laura

We admire you, girlfriend. You're independent, wireless and free! Although you surf the 'net every now and then and take a cell phone with you when you're travelling, your life isn't dictated by connectivity.
